

CELEMI Apples & Oranges®

Manufacturing - Sales

Invite people to think like business owners – so they can base their future decisions on sound business thinking.

Celeme Apples & Oranges® brings financial statements to life through its simple, visual hands-on model of a company. Participants form the incoming management team of A&O Inc. – an established company that is facing some tough challenges. The team will track the company from mediocrity to excellence via a series of exercises designed to elucidate the foundation of business in a manufacturing company.

Teams learn how to monitor cash flow, make resource utilization, build a profitable customer base and measure results in the balance sheet and income statement.

Participants of all levels can gain new skills or build on prior experience to:

- Read and interpret financial statements
- Identify critical elements affecting profitability
- Analyze financial ratios and key performance indicators and make priorities accordingly
- Understand how to build a customer base that will yield both short-term profit and long-term sustainable growth

Participants will explore the cause-and-effect relationships that govern a company's financial statements – and develop an intrinsic business sense that will govern their future decisions in everyday work.

What clients say
